The Definitive Source for
Higher Education Salaries Since 1967

2008

ACKNOWLEDGEMENTS

Publication of the *2007–08 Mid-Level Administrative & Professional Salary Survey* marks the survey's eleventh year. This year's report reflects the salaries of 173,760 incumbents in 206 mid-level administrative and professional positions at 1,125 colleges and universities nationwide, making it a key resource for salary-related decision making in the higher education community.

We wish to thank our members for their support relative to survey design and content. CUPA-HR would not be able to offer a tool so central to the needs of higher education administrators without their continuing insight and advice.

In the CUPA-HR National Office, our research department staff coordinated and reviewed all aspects of survey analysis and report production. To ensure the accuracy of data, the research staff worked closely with the many human resource and institutional research professionals responsible for completing the survey. The efforts of these individuals are greatly appreciated. We also want to thank Peerfocus, Inc., our partner and collaborator in Surveys Online.

INTRODUCTION

CUPA-HR's *Mid-Level Administrative & Professional Salary Survey* (Mid-Level Survey) provides comprehensive and up-to-date salary data for college and university administrators. The survey has been conducted on an annual basis since 1998.

Data collected by this survey, and by our *Administrative Compensation Survey* (AdComp Survey), are designed to help administrators effectively manage their human resource costs by providing a broad range of salary data with which to evaluate current administrative pay levels and plan compensation budgets.

Positions covered in the survey are complementary to those in the AdComp Survey. They are selected on the basis of an analysis of mid-level administrative and professional positions found at most higher education institutions. CUPA-HR reviews these positions prior to each year's survey. This year's survey reports data on 206 positions.

For coaching positions, institutions were asked to only report salaries for coaches that are full-time and to report only their total base salary; some of these full-time coaches may still have other duties, such as teaching a class. Institutions were asked not to report the salaries of coaches that are part-time or seasonal or that have other duties primarily and receive a stipend to coach a sport.

All positions in the Mid-Level survey have been re-numbered and re-ordered; the first to provide greater flexibility when adding new positions and the second to create groupings that more closely resemble the type of organizational structure commonly found in higher education. Both the report and DataOnDemand reflect the new numbering and ordering, and the creation of the following eight categories of positions:

- Academic Affairs
- Business & Administrative Affairs
- Human Resources
- Information Technology
- Athletics
- Student Affairs
- External Affairs
- Engineering/Research and Agricultural

The AdComp Survey has been similarly changed. The grouping of positions in the two surveys is now the same and the numbering complimentary, with the AdComp Survey having the lower half of a given series and the Mid-Level Survey the upper half.

If you believe we should cover additional positions, collect additional data, or make other improvements in our survey process, we welcome your suggestions. Our main objective is to meet the informational needs of CUPA-HR members in particular and of higher education institutions in general. Please send your suggestions to rsizemore@cupahr.org and specify "Mid-Level Survey Suggestion" in the subject line.

Important Changes in Reporting of Data Starting in 2006–07

In 2006–07 CUPA-HR changed to reporting "**un-weighted**" rather than "**weighted**" salary data in all survey reports. Un-weighted data more precisely reflects what institutions are paying as the average or median salary for a position is included only once for each participant school. Weighted data, in contrast, is more an indicator of what incumbents are earning since the average or median salary for a position is included once for each incumbent, thereby giving more weight to salaries paid by institutions with large numbers of incumbents.

Another change made in 2006-07, to comply with Department of Justice (DOJ) Safe Harbor Guidelines, was to increase the minimum number of responding institutions required for

reporting salary data **from four to five**. Reporting un-weighted data also ensures our ability to provide results for the greatest number of positions, given Safe Harbor's 25% rule for weighted data (see below).

In DataOnDemand both un-weighted and weighted salary data are available. Un-weighted data is the default for reports and weighted data is a user selected option. To comply with DOJ Safe Harbor Guidelines the weighted data option provides salary data only for positions with 5 or more responding institutions **and** in which all responding institutions comprise 25.0% or less of the incumbents. If a position has at least 5 responding institutions but one institution represents more than 25% of the incumbents, salary data is not reported. Go to <http://www.ftc.gov/reports/hlth3s.htm#6> to read a summary of the Safe Harbor Guidelines; select Statement 6.

SURVEY CONTENT

The Mid-Level Survey collects salary and rate structure data for selected mid-level administrative and professional positions in colleges and universities. **Appendix B** describes the positions included in the Mid-Level Survey. In addition, the survey also includes questions on pay practices which are summarized in **Appendix A**.

The Mid-Level Survey reports both institution-specific and position-specific data. Institutional data are used primarily to create appropriate comparison groups. Data collected as part of the survey process are listed below.

Institution-specific data pre-loaded

- Institution name
- 2000 Carnegie classification
- 2005 Carnegie classification
- Affiliation
 - Public
 - Private-independent
 - Private-religious
 - Private-for profit
- Level of instruction
 - Undergraduate only
 - Graduate only
 - Both undergraduate and graduate
- NCAA Division

Institution-specific data collected by survey

- Structure type
 - Single unit institution, with one or multiple sites
 - Institution within a College or University System
 - System Office
- 2007–08 Total operating budget
- Total Endowment
- Cost of Benefits
- Student enrollment for Fall 2007–08
 - Number of full-time students
 - Number of part-time students
 - Fall credit hours taken by part-time students
 - Full-time equivalent (FTE) student total

- Faculty size for Fall 2007–08
 - Number of full-time faculty
 - Standard fall full-time teaching load
 - Number of part-time faculty
 - Full-time equivalent (FTE) faculty total
- Faculty and/or staff represented by a union

Position-specific data collected by survey

- FLSA status
 - Exempt
 - Non-exempt
 - Both
- Number of incumbents
- Annual base salary data
 - Average salary (based on annualized, full-time equivalent status)
 - Lowest actual salary
 - Highest actual salary
- Rate structure data
 - Rate structure minimum
 - Rate structure midpoint (if applicable)
 - Rate structure maximum

SURVEY METHODOLOGY

The *Mid-Level Survey* is conducted entirely on the Web using Surveys Online, CUPA-HR's Web-based data collection and reporting system. This year's survey opened for data collection on September 5, 2007 and closed in January, 2008. An **Upload Option** was available that allowed respondents to upload a file of salary data to SurveysOnLine (SOL), saving the effort of manually keying each item. Institutional identification information, including name, Carnegie classification, affiliation, level of instruction and NCAA division are preloaded and need to be updated only if they have changed. The other institutional information shown above is collected once for use with all salary surveys.

If available, last year's reported salary data were provided on this year's questionnaire to aid in survey completion. An interactive FTE calculation worksheet also was available to help institutions calculate full-time equivalent student enrollment and faculty figures.

Thousands of real-time and server-side validation checks are built into the questionnaire. These checks flag data that are significantly different from data reported last year by an institution, or that are extremely low or high. A final validation check flags computational and other potential errors. In order to submit its survey, an institution has to correct all "fatal" errors and correct or annotate all "serious" errors. The validation checks streamline the data cleaning process and allow significantly faster turnaround time for results.

All data submitted by institutions for the *2007–08 Mid-Level Survey* will be available online for the next five years. After that, the data will be archived, but will still be accessible upon request.

ACCESSING SURVEY RESULTS

CUPA-HR's salary surveys are excellent support tools for your benchmarking and planning processes. Each of our surveys affords you the ability to compare your institution's salaries for specific positions to those of your peer or aspiration institutions and to higher education

as a whole, thus providing the basis for informed decisions. Results from the *2007–08 Mid-Level Survey* can be accessed in three ways.

- **Survey Report**

The survey report provides an easy-to-read, national-level summary of salaries by position. Salary data are shown for all institutions as a whole, and for groupings based on affiliation, budget size, student enrollment, and Carnegie classification. Additionally, average salary rates and rate structure data are reported by FLSA status, budget quartile and enrollment quartile. The survey report is published electronically in PDF format only.

Salary Comparisons: Dividing your institution's salaries by those reported in the survey will give you a good indication of how much more or less you are paying for the same position than other institutions.

- **DataOnDemand (DOD)**

DOD is a hands-on application that gives institutions and specified users direct access to survey data—from the date of purchase until the end of January of the following year. Users also have access to results for that survey from the prior four years. DOD is a great value as you can conduct your own analyses any time you want and as often as you want, using peer comparison groups that you create. Use of DOD is limited only by the five restrictions in place to protect confidentiality and ensure compliance with Department of Justice Safe Harbor Guidelines:

- No salary data are linked to a given institution (other than where a user has permission to see his or her institution's data).
- No salary data are reported for positions with fewer than five responding institutions.
- A comparison group must include a minimum of eight institutions that participated in the survey.
- Each comparison group created must differ by at least three institutions from all other existing and deleted comparison groups.
- The weighted data report option provides salary data only for positions with 5 or more responding institutions **and** in which all responding institutions comprise 25.0% or less of position incumbents. If a position has at least 5 responding institutions but one institution represents more than 25% of the incumbents, salary data is not reported.

Using DOD is easy. In most instances, all you have to do is create your comparison group and run one of the *Mid-Level Survey* standard reports we have created to meet your informational needs.

- **Single Position Report:** Provides average, median, minimum and maximum salary for one position, N of incumbents, N of institutions, your institution's salaries as a percentage of the comparison group's and salary percentile ranks 20, 25, 40, 60, 75 and 80. Report also gives you the option of reporting salaries on the basis of FLSA Status: Exempt, Non-Exempt or Both. Report can be produced using un-weighted or weighted data. Output format: HTML or PDF.
- **Multi-Position Report:** Provides average, median, minimum and maximum salary for multiple positions, N of incumbents, N of institutions, your institution's salaries as a percentage of the comparison group's and salary percentile ranks 20, 25, 33, 40, 60, 67, 75, 80 **or** 10, 20, 30, 40, 60, 70, 80, 90. Report can be produced using un-weighted or weighted data. Output format: HTML, PDF or Excel.
- **Ordinal Rank Report:** Provides an anonymous listing of the average salary reported for each position by each responding institution, and the un-weighted or weighted average salary by position. Output format: HTML, PDF or Excel.

- **Trend Report:** Allows you to see the percentage change in your salaries by position from a prior year to a second year (e.g. the current year) and comparable percentage change statistics for a selected set of peer institutions. The report shows the percentage change in the average, median, minimum and maximum salary for all positions, N of incumbents, % change in your institution's salaries as a percentage of your comparison group's percent change, and percent change percentile ranks 20, 25, 33, 40, 60, 67, 75, 80 or 10, 20, 30, 40, 60, 70, 80, 90. Report can be produced using un-weighted or weighted data. Output format: HTML, PDF or Excel.
- **Pay Scale Report:** Provides salary rate structure data for each position (minimum, mid-point and maximum) and N of institutions. Output format: HTML, Excel or PDF.

In addition to the above, you also can create slide shows and presentations, and even conduct your own informal *Geographical Statistical Area (GSA)* analyses by using the New Group Wizard to create comparison groups based on Metropolitan Statistical Areas.

DOD is available to all higher education institutions, regardless of survey participation. Institutions may have multiple users for each DOD subscription. For maximum value, we recommend purchasing a survey report *and* access to DataOnDemand. We offer discount pricing for purchases of multiple reports and multiple subscriptions to DataOnDemand. Whether you are part of an institution, system, or consortium, you can use these discounts to reduce your overall costs.

- **Special Studies**

Special studies are custom reports produced by the CUPA-HR research staff, based upon selection criteria specified by you, but subject to the same restrictions noted above. Prior to DOD, custom analyses could only be done through special studies. We still conduct special studies upon request, but DOD is a far greater value for the money. CUPA-HR's research staff also can produce a *Geographical Statistical Area (GSA) Report* upon request. This report provides higher education-specific, geographically-based salary data within Metropolitan Statistical Areas (MSA) as defined by the U.S. Government. GSA reports are used by compensation administrators to review salary data pertinent to the local labor market and by international educators to determine prevailing wages for specific job codes as part of the H-1B Visa process. The format for special studies and the GSA report is the same as DOD standard reports.

Go to www.cupahr.org to order DataOnDemand and Special Studies.

PROFILE OF 2007–08 PARTICIPATING INSTITUTIONS

This year's *Mid-Level Administrative and Professional Salary Survey* was completed by 1,125 higher education institutions. **Appendix C** lists survey participants in alphabetical order, along with each institution's FICE Code, Carnegie classification, affiliation, structure, and state.

The charts below describe this year's respondents. Public institutions comprise 48% (539) and private institutions 52% (586) of the 2007–08 respondents. The latter is composed of more independent than religiously affiliated institutions (313 vs. 273).

In terms of classification, Master's colleges and universities is the largest group of participants at 30.5% (343), with private institutions making up more than half of the group (17.3% vs. 13.2%). Baccalaureate colleges comprise 24.0% (270) of the respondents; most of them are private. Doctoral institutions make up 17.3% (195) of the respondents; about two-thirds are public. Associate's colleges represent 16.3% (183) of the respondents; almost all are public. Specialized institutions (which include system offices) are the smallest segment of respondents at 11.9% (134).

% Distribution of 2007–08 Mid-Level Survey Respondents by Affiliation

Distribution of 2007–08 Mid-Level Survey Respondents by Classification

2007–08 SALARY INCREASES: OVERALL AND BY AFFILIATION

Approximately 89% (1,002) of the institutions participating in the *2007–08 Mid-Level Survey* also completed the 2006–07 survey. A position-by-position analysis of the salaries reported by these institutions in both years shows that the median salary increase for all jobs was 3.9% this year.¹ The overall median increase was greater at public than at private institutions (4.0% versus 3.7%).

The survey shows that the overall median salary increase exceeds the rate of inflation. According to the Bureau of Labor Statistics, the **annual** Consumer Price Index for all urban consumers [CPI-U] in 2007 was 2.8 % higher than in 2006.

**% Median Salary Increase Overall and by Affiliation
Mid-Level Survey Current and Prior Three Years ***

* Survey years reported in table: '04-'05, '05-'06, '06-'07, '07-'08

¹ **Method of Calculating Median Salary Increase:** Percent change is determined for each pair of salaries reported by institutions for the current and prior year, and the median of the percent change calculated.

2007–08 SALARY INCREASES: BY CLASSIFICATION

As the numbers below indicate, increases were higher this year than in any of the previous three years across all classifications, with the exception of specialized institutions. Overall increases were greatest at Master's institutions and Associate's colleges (4.0%); the latter also had the largest increase last year. Specialized institutions had the smallest increase this year at 3.5%.

**% Median Salary Increase by Classification
Mid-Level Survey Current and Prior Three Years ***

* Survey years reported in table: '04-'05, '05-'06, '06-'07, '07-'08

Increases were slightly greater this year at public than at private institutions for all but the Specialized category.

**% Median Salary Increase '06–'07 to '07–'08
by Classification and Affiliation**

	Doctoral	Master's	Bachelor's	Associate's	Specialized
Public	4.0	4.0	4.0	4.0	3.5
Private	3.7	3.8	3.7	3.5	3.7

2007–08 SALARY INCREASES: BY JOB CATEGORY

Differences in salary increases by job category ranged from a low of 3.5% to a high of 4.0%. Increases this year were the same or higher than last year across all categories and all were higher than increases in 2005 or 2006. As the second table shows, increases by job category this year were slightly higher at public than private institutions.

**% Median Salary Increase Last Four Years
Mid-Level Survey By Job Category**

	'05	'06	'07	'08
Academic Affairs	3.0	3.1	3.5	3.5
Business & Administrative Affairs	3.1	3.3	3.9	4.0

Athletics	4.0	4.0	3.8
Student Affairs	3.5	3.7	3.5
External Affairs	4.0	4.0	3.9
Engineering/Research and Agricultural	3.9	4.0	3.5

DATA SPECIFICATIONS

Respondents were asked to observe the following specifications in reporting their data:

- Salaries are those in effect as of October 15, 2007.
- Salaries are at an annualized, full-time rate; they reflect only actual cash earnings (except for housing positions), excluding any services contributed without charge.
- Enrollment and budget figures are for the operating year 2007–08.
- Enrollment is stated in terms of full-time equivalent students. Most institutions reported enrollment information. For those few that did not, last year's enrollment information was used, if available.
- Budget figures represent total operating budget for educational and general operations and auxiliary enterprises, including research funds and **funded** student aid. It does not include unfunded student air (discounts) or capital funds. Prior to the 2005–06 survey unfunded aid was included. Most institutions reported budget information. For those few that did not, last year's budget information was used, if available.
- The 2000 Carnegie Classification is used in this report to classify institutions based on their degree-granting activities into the following four groups. A fifth group, Specialized Institutions, is not broken out separately in the Carnegie-related tables, but is included in the final "All Institutions" column. In DataOnDemand, institutions (including specialized) are classified by both group and sub-group.
 - **Doctorate-granting institutions**
 - > Doctoral/Research Universities–Extensive [DR EXT]: These institutions typically offer a wide range of baccalaureate programs, and they are committed to graduate education through the doctorate. During the period studied, they awarded 50 or more doctoral degrees per year across at least 15 disciplines.
 - > Doctoral/Research Universities–Intensive [DR INT]: These institutions typically offer a wide range of baccalaureate programs, and they are committed to graduate education through the doctorate. During the period studied, they awarded at least ten doctoral degrees per year across three or more disciplines, or at least 20 doctoral degrees per year overall.
 - **Master's Colleges and Universities**
 - > Master's Colleges and Universities I [MA I]: These institutions typically offer a wide range of baccalaureate programs, and they are committed to graduate education through the master's degree. During the period studied, they awarded 40 or more master's degrees per year across three or more disciplines.
 - > Master's Colleges and Universities II [MA II]: These institutions typically offer a wide range of baccalaureate programs, and they are committed to graduate education through the master's degree. During the period studied, they awarded 20 or more master's degrees per year.
 - **Baccalaureate Colleges**
 - > Baccalaureate Colleges–Liberal Arts [BA LA]: These institutions are primarily undergraduate colleges with major emphasis on baccalaureate programs. During the period studied, they awarded at least half of their baccalaureate degrees in liberal arts fields.
 - > Baccalaureate Colleges–General [BA GEN]: These institutions are primarily undergraduate colleges with major emphasis on baccalaureate programs. During the period studied, they awarded less than half of their baccalaureate degrees in liberal arts fields.

- > Baccalaureate/Associate's Colleges [BA AA]: These institutions are undergraduate colleges where the majority of conferrals are at the sub-baccalaureate level (associate's degrees and certificates). During the period studied, bachelor's degrees accounted for at least ten percent but less than half of all undergraduate awards.
- **Associate's Colleges [AA]**
These institutions offer associate's degree and certificate programs but, with few exceptions, award no baccalaureate degrees. This group includes institutions where, during the period studied, bachelor's degrees represented less than 10 percent of all undergraduate awards. This group includes community, junior and technical colleges.

DEFINITIONS

Budget Quartiles: To compute the quartiles, the budgets reported by each institution were ranked from low to high. One-quarter of the institutions were then included in each quartile. The budget ranges for each quartile are listed in the column headings.

Enrollment Quartiles: To compute the quartiles, the enrollments reported by each institution were ranked from low to high. One-quarter of the institutions were then included in each quartile. The enrollment ranges for each quartile are listed in the column headings.

Percentile Ranks: To compute percentiles, each institution's average salary is counted once, ranked from low to high and then split at the following points:

- 20th percentile: 20% of all reported salaries equal or fall below this value.
- 40th percentile: 40% of all reported salaries equal or fall below this value.
- 50th percentile (**Median**): 50% of all reported salaries equal or fall below this value. The median is considered a more reliable measure than the mean (arithmetic average) in distributions containing a few extremely high or low numbers.
- 60th percentile: 60% of all reported salaries equal or fall below this value.
- 80th percentile: 80% of all reported salaries equal or fall below this value.

FLSA (Fair Labor Standards Act) Status: Classifies jobs as exempt (salaried), nonexempt (hourly), or both exempt and nonexempt within the same classification.

Rate Structure Average Minimum: The simple (un-weighted) average of the lowest value reported for the salary range.

Rate Structure Average Midpoint: The simple (un-weighted) average of the middle value reported for the salary range. Because not all institutions use midpoints, and others have step systems in which the midpoint does not equal the average of the minimum and maximum, this figure may not equal the mean of the average minimum and maximum figures.

Rate Structure Average Maximum: The simple (un-weighted) average of the highest value reported for the salary range.

SALARY TABLES

Important Changes in Reporting of Data Starting in 2006-07

To ensure compliance with Department of Justice Guidelines for “Safe Harbor” all salary tables included in this document report **un-weighted rather than weighted** salary data and data is reported only for positions having at least five responding institutions. The same is true for DatOnDemand reports. Weighted data reports are still available as a user selected option. However, the weighted data option provides salary data only for positions with 5 or more responding institutions **and** in which all responding institutions comprise 25.0% or less of position incumbents. If a position has at least 5 responding institutions but one institution represents more than 25% of the incumbents, salary data is not reported. To read a summary of the guidelines go to <http://www.ftc.gov/reports/hlth3s.htm#6> and select Statement 6.

Note: This Executive Summary includes Table 3 only. To order the full report please visit <http://www.cupahr.org/surveys/salarysurvey2007-08.asp>

Table 3: Unweighted Median Salary by Budget Quartile - All Institutions

* 4 cases or fewer	Quartile 1	Quartile 2	Quartile 3	Quartile 4	All Institutions	
	< \$31.7M	\$31.7M-\$68.6M	\$68.6M-\$166.6M	> \$166.6M	Median	Number
