## ACKNOWLEDGEMENTS

Publication of the *2010–11 Mid-Level Administrative & Professional Salary Survey* marks the survey's fourteenth year. This year's report reflects the salaries of 195,169 incumbents in 214 mid-level administrative and professional positions at 1,106 colleges and universities nationwide, making it a key resource for salary-related decision making in the higher education community.

We wish to thank our members for their support relative to survey design and content. CUPA-HR would not be able to offer a tool so central to the needs of higher education administrators without their continuing insight and advice. We also want to thank Peerfocus, Inc., our partner and collaborator in Surveys Online.

In the CUPA-HR National Office, our research department staff coordinated and reviewed all aspects of survey analysis and report production. To ensure the accuracy of data, the research staff worked closely with the many human resource and institutional research professionals responsible for completing the survey. The efforts of these individuals are greatly appreciated.

Andy Brantley  
President and Chief Executive Officer

## INTRODUCTION

CUPA-HR's *Mid-Level Administrative & Professional Salary Survey* (Mid-Level Survey) provides comprehensive and up-to-date salary data for college and university administrators. The survey has been conducted on an annual basis since 1998.

Data collected by this survey, and by our *Administrative Compensation Survey* (AdComp Survey), are designed to help administrators effectively manage their human resource costs by providing a broad range of salary data with which to evaluate current administrative pay levels and plan compensation budgets.

Positions covered in the survey are complementary to those in the AdComp Survey. They are selected on the basis of an analysis of mid-level administrative and professional positions found at most higher education institutions. CUPA-HR reviews these positions prior to each year's survey. This year's survey reports data on 214 positions. All report tables use the 2005 Carnegie classifications.

For coaching positions, institutions were asked to only report salaries for coaches that are full-time and to report only their total base salary; some of these full-time coaches may still have other duties, such as teaching a class. Institutions were asked not to report the salaries of coaches that are part-time or seasonal or that have other duties primarily and receive a stipend to coach a sport.

Positions in the Mid-Level survey are grouped into eight categories:

- Academic Affairs
- Business & Administrative Affairs
- Human Resources
- Information Technology
- Athletics
- Student Affairs
- External Affairs
- Engineering/Research and Agricultural

These same categories, plus three additional, are also used by the AdComp Survey. The numbering of positions is complementary, with the AdComp Survey having the lower half of a given series and the Mid-Level Survey the upper half.

If you believe we should cover additional positions, collect additional data, or make other improvements in our survey process, we welcome your suggestions. Our main objective is to meet the informational needs of CUPA-HR members in particular and of higher education institutions in general. Please send your suggestions to [rsizemore@cupahr.org](mailto:rsizemore@cupahr.org) and specify "Mid-Level Survey Suggestion" in the subject line.

### Important Changes in Reporting of Data Starting in 2006–07

In 2006–07 CUPA-HR changed to reporting "**un-weighted**" rather than "**weighted**" salary data in all survey reports. Un-weighted data more precisely reflects what institutions are paying as the average or median salary for a position is included only once for each participant school. Weighted data, in contrast, is more an indicator of what incumbents are earning since the average or median salary for a position is included once for each incumbent, thereby giving more weight to salaries paid by institutions with large numbers of incumbents.

Another change made in 2006-07, to comply with Department of Justice (DOJ) Safe Harbor Guidelines, was to increase the minimum number of responding institutions required for reporting salary data **from four to five**. Reporting un-weighted data also ensures our ability to provide results for the greatest number of positions, given Safe Harbor's 25% rule for weighted data (see below).

In DataOnDemand both un-weighted and weighted salary data are available. Un-weighted data is the default for reports and weighted data is a user selected option. To comply with DOJ Safe Harbor Guidelines the weighted data option provides salary data only for positions with 5 or more responding institutions **and** in which no responding institution accounts for more than 25% of the incumbents. If a position has at least 5 responding institutions but one institution represents more than 25% of the incumbents, salary data is not reported. Go to <http://www.ftc.gov/reports/hlth3s.htm#6> to read a summary of the Safe Harbor Guidelines; select Statement 6.

## **SURVEY CONTENT**

The Mid-Level Survey collects salary and rate structure data for selected mid-level administrative and professional positions in colleges and universities. **Appendix B** describes the positions included in the Mid-Level Survey. In addition, the survey also includes questions on pay practices which are summarized in **Appendix A**.

The Mid-Level Survey reports both institution-specific and position-specific data. Institutional data are used primarily to create appropriate comparison groups. Data collected as part of the survey process are listed below.

### **Institution-specific data pre-loaded**

- Institution name
- 2000 Carnegie classification
- 2005 Carnegie classification
- Affiliation
  - Public
  - Private-independent
  - Private-religious
  - Private-for profit
- Level of instruction
  - Undergraduate only
  - Graduate only
  - Both undergraduate and graduate
- NCAA Division
- MSA

### **Institution-specific data collected by survey**

- Structure type
  - Single unit institution, with one or multiple sites
  - Institution within a College or University System
  - System Office
- 2010–11 Total operating budget
- Student enrollment for Fall 2010–11
  - Number of full-time students
  - Number of part-time students
  - Fall credit hours taken by part-time students
  - Full-time equivalent (FTE) student total
- Faculty size for Fall 2010–11
  - Number of full-time faculty
  - Standard fall full-time teaching load
  - Number of part-time faculty
  - Full-time equivalent (FTE) faculty total

- Faculty and/or staff represented by a union

### **Position-specific data collected by survey**

- FLSA status
  - Exempt
  - Non-exempt
  - Both
- Number of incumbents
- Annual base salary data
  - Average salary (based on annualized, full-time equivalent status)
  - Lowest actual salary
  - Highest actual salary
- Rate structure data
  - Rate structure minimum
  - Rate structure midpoint (if applicable)
  - Rate structure maximum

## **SURVEY METHODOLOGY**

The *Mid-Level Survey* is conducted entirely on the Web using Surveys Online, CUPA-HR's Web-based data collection and reporting system. This year's survey opened for data collection on September 14, 2010 and closed in January, 2011. An **Upload Option** was available that allowed respondents to upload a file of salary data to SurveysOnLine (SOL), saving the effort of manually keying each item. Institutional identification information, including name, Carnegie classification, affiliation, level of instruction and NCAA division are preloaded and need to be updated only if they have changed. The other institutional information shown above is collected once for use with all salary surveys.

If available, last year's reported salary data were provided on this year's questionnaire to aid in survey completion. An interactive FTE calculation worksheet also was available to help institutions calculate full-time equivalent student enrollment and faculty figures.

Thousands of real-time and server-side validation checks are built into the questionnaire. These checks flag data that are significantly different from data reported last year by an institution, or that are extremely low or high. A final validation check flags computational and other potential errors. In order to submit its survey, an institution has to correct all "fatal" errors and correct or annotate all "serious" errors. The validation checks streamline the data cleaning process and allow significantly faster turnaround time for results.

All data submitted by institutions for the *2010–11 Mid-Level Survey* will be available online for the next five years. After that, the data will be archived, but will still be accessible upon request.

## **ACCESSING SURVEY RESULTS**

CUPA-HR's salary surveys are excellent support tools for your benchmarking and planning processes. Each of our surveys affords you the ability to compare your institution's salaries for specific positions to those of your peer or aspiration institutions and to higher education as a whole, thus providing the basis for informed decisions. Results from the *2010–11 Mid-Level Survey* can be accessed in three ways.

- **Survey Report**

The survey report provides an easy-to-read, national-level summary of salaries by position. Salary data are shown for all institutions as a whole, and for groupings based on affiliation, budget size, student enrollment, and Carnegie classification. Additionally,

average salary rates and rate structure data are reported by FLSA status, budget quartile and enrollment quartile. The survey report is published electronically in PDF format only.

*Salary Comparisons:* Dividing your institution's salaries by those reported in the survey will give you a good indication of how much more or less you are paying for the same position than other institutions.

- **DataOnDemand (DOD)**

DOD is a hands-on application that gives institutions and specified users' direct access to survey data—from the date of purchase until the end of January of the following year. Users also have access to results for that survey from the prior four years. DOD is a great value as you can conduct your own analyses any time you want and as often as you want, using peer comparison groups that you create. Use of DOD is limited only by the five restrictions in place to protect confidentiality and ensure compliance with Department of Justice Safe Harbor Guidelines:

- No salary data are linked to a given institution (other than where a user has permission to see his or her institution's data).
- No salary data are reported for positions with fewer than five responding institutions.
- A comparison group must include a minimum of eight institutions that participated in the survey.
- Each comparison group created and used must differ by at least three institutions from all other existing and deleted comparison groups.
- The weighted data report option provides salary data only for positions with 5 or more responding institutions **and** in which no institution comprises more than 25% of position incumbents. If a position has at least 5 responding institutions but one institution represents more than 25% of the incumbents, salary data is not reported.

Using DOD is easy. In most instances, all you have to do is create your comparison group and run one of the *Mid-Level Survey* standard reports we have created to meet your informational needs.

- **Single Position Report:** Provides average, median, minimum and maximum salary for one position, N of incumbents, N of institutions, your institution's salaries as a percentage of the comparison group's and salary percentile ranks 20, 25, 40, 60, 75 and 80. Report also gives you the option of reporting salaries on the basis of FLSA Status: Exempt, Non-Exempt or Both. Report can be produced using un-weighted or weighted data. Output format: HTML or PDF.
- **Multi-Position Report:** Provides average, median, minimum and maximum salary for multiple positions, N of incumbents, N of institutions, your institution's salaries as a percentage of the comparison group's and salary percentile ranks 20, 25, 33, 40, 60, 67, 75, 80 **or** 10, 20, 30, 40, 60, 70, 80, 90. Report can be produced using un-weighted or weighted data. Output format: HTML, PDF or Excel.
- **Ordinal Rank Report:** Provides an anonymous listing of the average salary reported for each position by each responding institution, and the un-weighted or weighted average salary by position. Output format: HTML, PDF or Excel.
- **Trend Report:** Allows you to see the percentage change in your salaries by position from a prior year to a second year (e.g. the current year) and comparable percentage change statistics for a selected set of peer institutions. The report shows the percentage change in the average, median, minimum and maximum salary for all positions, N of incumbents, % change in your institution's salaries as a percentage of your comparison group's percent change, and percent change in percentile ranks 20, 25, 33, 40, 60, 67, 75, 80 or 10, 20, 30, 40, 60, 70, 80, 90.

Report can be produced using un-weighted or weighted data. Output format: HTML, PDF or Excel.

- **Pay Scale Report:** Provides salary rate structure data for each position (minimum, mid-point and maximum) and N of institutions. Output format: HTML, Excel or PDF.
- **Aging Option (NEW):** You now have the option of aging CUPA-HR salary data for the Administrative Compensation, Mid-Level and National Faculty Salary surveys. Aging allows you to run the DOD salary survey reports and see estimated results had the data been collected at a different point in time (the Aging Date). You can age the data from the day after the "report as of" date (i.e., from Oct 16, 2010 for the 2010-11 academic year) to as far ahead as March 1 of the year following the end year of the survey's academic year (i.e., for the 2010-11 survey, you can age the data ahead to March 1, 2012 - roughly the time when a new year's worth of survey data are released, providing more reliable information). Aging is based on a projected annual rate of increase for the survey year and a portion of the subsequent year. The same rate is used for both years and there is no compounding.

In addition to the above, you also can create slide shows and presentations, and even conduct your own informal *Geographical Statistical Area (GSA)* analyses by using the New Group Wizard to create comparison groups based on Metropolitan Statistical Areas.

DOD is available to all higher education institutions, regardless of survey participation. Institutions may have multiple users for each DOD subscription. For maximum value, we recommend purchasing a survey report *and* access to DataOnDemand. We offer discount pricing for purchases of multiple reports and multiple subscriptions to DataOnDemand. Whether you are part of an institution, system, or consortium, you can use these discounts to reduce your overall costs.

- **Special Studies**

Special studies are custom reports produced by the CUPA-HR research staff, based upon selection criteria specified by you, but subject to the same restrictions noted above. Prior to DOD, custom analyses could only be done through special studies. We still conduct special studies upon request, but DOD is a far greater value for the money. CUPA-HR's research staff also can produce a *Geographical Statistical Area (GSA) Report* upon request. This report provides higher education-specific, geographically-based salary data within Metropolitan Statistical Areas (MSA) as defined by the U.S. Government. GSA reports are used by compensation administrators to review salary data pertinent to the local labor market and by international educators to determine prevailing wages for specific job codes as part of the H-1B Visa process. The format for special studies and the GSA report is the same as DOD standard reports.

**Go to <http://www.cupahr.org/surveys/order.asp> to order reports and DataOnDemand and to <http://www.cupahr.org/surveys/special.asp> to order Special Studies.**

## PROFILE OF 2010–11 PARTICIPATING INSTITUTIONS

This year's *Mid-Level Administrative and Professional Salary Survey* was completed by 1,106 higher education institutions. **Appendix C** lists survey participants in alphabetical order, along with each institution's Unit ID, Carnegie classification, affiliation, structure, and state.

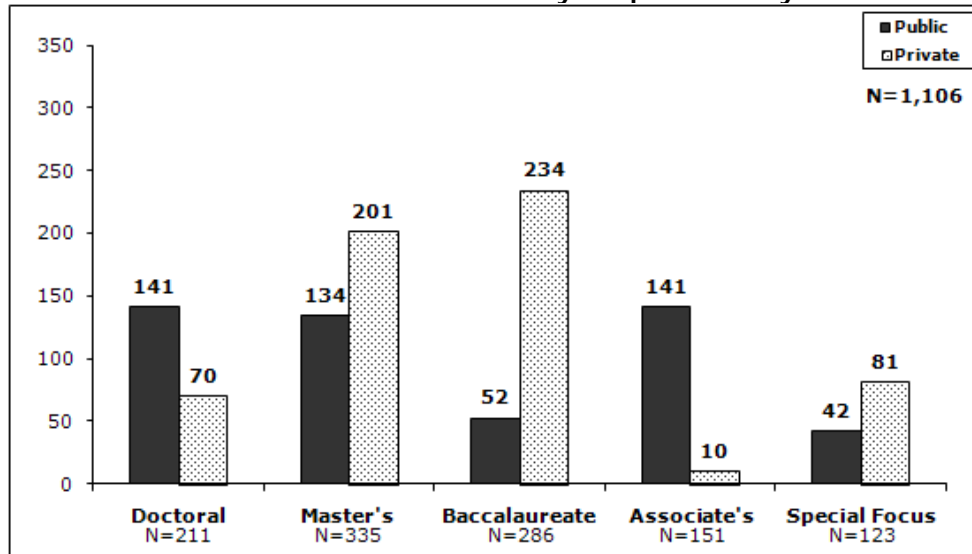

The charts below describe this year's respondents. Public institutions comprise 46% (510) and private institutions 54% (596) of the 2010–11 respondents. The latter is composed of more independent than religiously affiliated institutions (326 vs. 270).

In terms of classification, Master's colleges and universities is the largest group of participants at 30.3% (335), with private institutions making up more than half of this group (18.2% vs. 12.1%). Baccalaureate colleges comprise 25.9% (286) of the respondents; most of them are private. Doctorate-Granting institutions make up 19.1% (211) of the respondents; about two-thirds are public. Associate's colleges represent 13.6% (151) of the respondents; almost all are public. Special Focus institutions (which include system offices) are the smallest segment of respondents at 11.1% (123).

**% Distribution of 2010–11 Mid-Level Survey Respondents by Affiliation**

**Distribution of 2010–11 Mid-Level Survey Respondents by Classification**

## 2010–11 SALARY INCREASES: OVERALL AND BY AFFILIATION

Approximately 90% (999) of the institutions participating in the *2010–11 Mid-Level Survey* also completed the 2009-10 survey. A position-by-position analysis of the salaries reported by these institutions in both years' shows that the median salary increase for all jobs was **1.3%** this year.<sup>1</sup> However, as was the case with senior staff and faculty at four-year institutions, **this percentage is somewhat misleading** in that the median increase for public institutions was 0% (the same as last year) while for private institutions it was 2%.

According to the Bureau of Labor Statistics, the **annual** Consumer Price Index for all urban consumers [CPI-U] in 2010 was 1.6% higher than in 2009. As such, the median salary increase this year was slightly less than inflation for all institutions combined but substantially worse than inflation for the publics and better than inflation for the privates.

**% Median Salary Increase Overall and by Affiliation  
Mid-Level Survey Current and Prior Three Years \***

\* Survey years reported in table: '07-'08, '08-'09, '09-'10, '10-'11

<sup>1</sup> **Method of Calculating Median Salary Increase:** Percent change is determined for each pair of salaries reported by institutions for the current and prior year, and the median of the percent change is calculated.

## 2010–11 SALARY INCREASES BY 2005 CARNEGIE CLASSIFICATION

Baccalaureate and Special Focus institutions had the highest median salary increases at 1.8% each, while doctoral and associate institutions had the lowest increases at 1.0%. As with the overall median increase, however, these numbers are somewhat misleading. As the table at the bottom of the page shows, the median salary increase for public institutions was 0% for all but Associate institutions which had a median increase of just 0.7%. In contrast, for private institutions, median salary increases across all categories were 2.0% or better.

**% Median Salary Increase by Classification

## 2010–11 SALARY INCREASES: BY JOB CATEGORY

Median salary increases across all job categories ranged from 1.0% to 1.5%. By affiliation, the median salary increase was 0% for all job categories at public institutions and 2.0% at private institutions.

## DATA SPECIFICATIONS

Respondents were asked to observe the following specifications in reporting their data:

- Salaries are those in effect as of October 15, 2010.
- Salaries are at an annualized, full-time rate; they reflect only actual cash earnings (except for housing positions), excluding any services contributed without charge.
- Enrollment and budget figures are for the operating year 2010–11.
- Enrollment is stated in terms of full-time equivalent students. Most institutions reported enrollment information. For those few that did not, last year's enrollment information was used, if available.
- Budget figures represent total operating budget for educational and general operations and auxiliary enterprises, including research funds and **funded** student aid. It does not include unfunded student aid (discounts) or capital funds. Prior to the 2005–06 survey unfunded aid was included. Most institutions reported budget information. For those few that did not, last year's budget information was used, if available.
- The 2005 Carnegie Classification is used in this report to classify institutions based on their degree-granting activities into the following five groups. The last group, Special Focus Institutions, is not broken out separately in the Carnegie-related tables, but is included in the final "All Institutions" column. In DataOnDemand, institutions (including Special Focus) are classified by both group and sub-group.
  - **Doctorate-granting Universities.** Includes institutions that award at least 20 doctoral degrees per year (excluding doctoral-level degrees that qualify recipients for entry into professional practice, such as the JD, MD, PharmD, DPT, etc.). Excludes Special Focus Institutions and Tribal Colleges.
    - > RU/VH: Research Universities (very high research activity)
    - > RU/H: Research Universities (high research activity)
    - > DRU: Doctoral/Research Universities
  - **Master's Colleges and Universities.** Generally includes institutions that award at least 50 master's degrees and fewer than 20 doctoral degrees per year. (Some institutions above the master's degree threshold are included among Baccalaureate Colleges, and some below the threshold are included among Master's Colleges and Universities. Excludes Special Focus Institutions and Tribal Colleges).
    - > Master's/L: Master's Colleges and Universities (larger programs)
    - > Master's/M: Master's Colleges and Universities (medium programs)
    - > Master's/S: Master's Colleges and Universities (smaller programs)
  - **Baccalaureate Colleges.** Includes institutions where baccalaureate degrees represent at least 10 percent of all undergraduate degrees and that award fewer than 50 master's degrees or 20 doctoral degrees per year. (Some institutions above the master's degree threshold are also included. Excludes Special Focus Institutions and Tribal Colleges).
    - > Bac/A&S: Baccalaureate Colleges—Arts & Sciences
    - > Bac/Diverse: Baccalaureate Colleges—Diverse Fields
    - > Bac/Assoc: Baccalaureate/Associate's Colleges

- **Associate's Colleges.** Includes institutions where all degrees are at the associate's level, or where bachelor's degrees account for less than 10 percent of all undergraduate degrees. Excludes institutions eligible for classification as Tribal Colleges or Special Focus Institutions.
  - > Assoc/Pub-R-S: Associate's—Public Rural-serving Small
  - > Assoc/Pub-R-M: Associate's—Public Rural-serving Medium
  - > Assoc/Pub-R-L: Associate's—Public Rural-serving Large
  - > Assoc/Pub-S-SC: Associate's—Public Suburban-serving Single Campus
  - > Assoc/Pub-S-MC: Associate's—Public Suburban-serving Multicampus
  - > Assoc/Pub-U-SC: Associate's—Public Urban-serving Single Campus
  - > Assoc/Pub-U-MC: Associate's—Public Urban-serving Multicampus
  - > Assoc/Pub-Spec: Associate's—Public Special Use
  - > Assoc/PrivNFP: Associate's—Private Not-for-profit
  - > Assoc/PrivFP: Associate's—Private For-profit
  - > Assoc/Pub2in4: Associate's—Public 2-year Colleges under Universities
  - > Assoc/Pub4: Associate's—Public 4-year, Primarily Associate's
  - > Assoc/PrivNFP4: Associate's—Private Not-for-profit 4-year, Primarily Associate's
  - > Assoc/PrivFP4: Associate's—Private For-profit 4-year, Primarily Associate's
  
- **Special Focus Institutions.** Institutions awarding baccalaureate or higher-level degrees where a high concentration of degrees is in a single field or set of related fields. Excludes Tribal Colleges.
  - > Spec/Faith: Theological seminaries, Bible colleges; other faith-related institutions
  - > Spec/Medical: Medical schools and medical centers
  - > Spec/Health: Other health profession schools
  - > Spec/Engg: Schools of engineering
  - > Spec/Tech: Other technology-related schools>
  - > Spec/Bus: Schools of business and management
  - > Spec/Arts: Schools of art, music, and design
  - > Spec/Law: Schools of law
  - > Spec/Other: Other special-focus institutions

## DEFINITIONS

**Budget Quartiles:** To compute the quartiles, the budgets reported by each institution were ranked from low to high. One-quarter of the institutions were then included in each quartile. The budget ranges for each quartile are listed in the column headings.

**Enrollment Quartiles:** To compute the quartiles, the enrollments reported by each institution were ranked from low to high. One-quarter of the institutions were then included in each quartile. The enrollment ranges for each quartile are listed in the column headings.

**Percentile Ranks:** To compute percentiles, each institution's average salary is counted once, ranked from low to high and then split at the following points:

- 20<sup>th</sup> percentile: 20% of all reported salaries equal or fall below this value.
- 40<sup>th</sup> percentile: 40% of all reported salaries equal or fall below this value.
- 50<sup>th</sup> percentile (**Median**): 50% of all reported salaries equal or fall below this value. The median is considered a more reliable measure than the mean (arithmetic average) in distributions containing a few extremely high or low numbers.
- 60<sup>th</sup> percentile: 60% of all reported salaries equal or fall below this value.
- 80<sup>th</sup> percentile: 80% of all reported salaries equal or fall below this value.

**FLSA (Fair Labor Standards Act) Status:** Classifies jobs as exempt (salaried), nonexempt (hourly), or both exempt and nonexempt within the same classification.

**Rate Structure Average Minimum:** The simple (un-weighted) average of the lowest value reported for the salary range.

**Rate Structure Average Midpoint:** The simple (un-weighted) average of the middle value reported for the salary range. Because not all institutions use midpoints, and others have step systems in which the midpoint does not equal the average of the minimum and maximum, this figure may not equal the mean of the average minimum and maximum figures.

**Rate Structure Average Maximum:** The simple (un-weighted) average of the highest value reported for the salary range.

# SALARY TABLES

## Important Changes in Reporting of Data as of 2006-07

To ensure compliance with Department of Justice Guidelines for "Safe Harbor" all salary tables included in this document report **un-weighted rather than weighted** salary data and data is reported only for positions having at least five responding institutions. The same is true for DatOnDemand reports. Weighted data reports are still available as a user selected option. However, the weighted data option provides salary data only for positions with 5 or more responding institutions **and** in which no responding institution comprises more than 25% of position incumbents. If a position has at least 5 responding institutions but one institution represents more than 25% of the incumbents, salary data is not reported. To read a summary of the guidelines go to <http://www.ftc.gov/reports/hlth3s.htm#6> and select Statement 6.

### Budget and Enrollment Quartiles for All 2010–11 Mid-Level Survey Participants

|            | Budget                      | Enrollment    |
|------------|-----------------------------|---------------|
| Quartile 1 | <\$36,886,295               | < 1,757       |
| Quartile 2 | \$36,886,295 - \$82,427,394 | 1,757 – 3,397 |
| Quartile 3 | \$82,427,395- \$203,377,500 | 3,398 – 9,792 |
| Quartile 4 | > \$203,377,500             | > 9,792       |
| Median     | \$82,427,394                | 3,397         |

### Budget Quartiles for 2010–11 Mid-Level Participants by Affiliation

|            | Public                       | Private                     |
|------------|------------------------------|-----------------------------|
| Quartile 1 | < \$57,124,001               | < \$29,529,001              |
| Quartile 2 | \$57,124,001- \$152,027,588  | \$29,529,001 - \$56,448,201 |
