

## Giveaway a Course Registration at Your Chapter Meeting or Event

Creating and facilitating inclusive search processes should be a priority for every campus across the country. The challenge is that a majority of our search committee chairs and search committee members are not prepared to incorporate inclusive search best practices.

We would like to offer a free one-year subscription to the facilitator version of the [Building a Successful, More Inclusive Search](#) course that your chapter can give away to a lucky conference participant at your next event!

Giveaway may be applied to live and virtual chapter events (ex. webinars); chapters are eligible to offer this giveaway twice during this fiscal year and the giveaway is valid through June 30, 2017.

- For example, a chapter can offer the giveaway during a fall 2016 event and then once again during a spring 2017 event.
- If there is a chapter that will not meet again until next July, we will allow them to award this promotion at that time

The individual chapters can determine the best method to award the giveaway. Ex: Drawing of all attendees, submission of a ticket of some sort, etc.

This one-year subscription gives anyone on the recipient's campus access to the course materials, videos and handouts.

After you have awarded this as a conference giveaway, please e-mail our Learning and Professional Development team ([learn@cupahr.org](mailto:learn@cupahr.org) subject: Chapter Giveaway) to let them know who the winner is. We will work with the recipient to set up the one-year subscription. Recipients will be enrolled immediately to begin the one-year subscription.
