Publication of the 2014-15 Administrators in Higher Education Salary Survey marks the forty-eighth year for this survey. Results for this year reflect the salaries of 55,197 administrators in 191 senior-level administrative positions at 1,227 colleges and universities nationwide, making it a key resource for salary-related decisions in the higher education community.

We wish to thank our members for their support relative to survey design and content. CUPA-HR would not be able to offer a tool so central to the needs of higher education administrators without their continuing insight and advice. We also want to thank Peerfocus, Inc., our partner and collaborator in Surveys Online.

In the CUPA-HR National Office, our research department staff coordinated and reviewed all aspects of survey analysis and report production. To ensure the accuracy of data, the research staff worked closely with the many human resource and institutional research professionals responsible for completing the survey. The efforts of these individuals are greatly appreciated.

# Introduction

CUPA-HR’s Administrators in Higher Education Salary Survey (AHES) collects salary data for 191 positions with primary assignments requiring management of the institution or of a customarily recognized division within it. All positions are FLSA Exempt. This survey replaced the Administrative Compensation Survey in 2012-13. All survey positions are matched in the worksheets to BLS Standard Occupational Classification (SOC) codes to assist institutions in completing the new IPEDS reporting requirements. However, the survey does not collect data by SOC code.

The survey is designed to help administrators effectively manage their human resource costs by providing a broad range of salary data with which to evaluate current pay level and plan compensation budgets. Our Professionals in Higher Education Salary Survey provides comparable data for 288 functional professional positions with primary assignments and responsibilities requiring professional-level expertise and work in a specific functional area, such as academic or student services, facilities management, human resources, information technology, athletics, etc. Our Non-Exempt Staff Survey collects salary data for 145 hourly positions.

# Survey Positions

Positions in the Administrators Survey are grouped into the six categories shown below.

- |   |   |
|---|---|
| <ul style="list-style-type: none"><li>• Top Executive Officers</li><li>• Senior Institutional Officers</li><li>• Academic Deans</li></ul> | <ul style="list-style-type: none"><li>• Institutional Administrators</li><li>• Heads of Divisions, Departments &amp; Centers</li><li>• Academic Associate/Assistant Deans</li></ul> |
|---|---|

Positions are selected on the basis of ongoing analyses of the different administrative positions found at higher education institutions. No new positions were added to this year’s survey. Go to <http://www.cupahr.org/surveys/worksheets.aspx> to download position descriptions.

If you believe we should cover additional positions, collect additional data, or make other improvements in our survey process, please send your suggestions to [research@cupahr.org](mailto:research@cupahr.org) and specify “Administrators Survey Suggestion” in the subject line.

## Survey Content

The Administrators Survey collects both institution and position specific data. Institutional data are used primarily to create comparison groups for reports and in DataOnDemand, our real-time data analysis tool. The following data are available for each institution.

- |  |  |
|--|--|
| <ul style="list-style-type: none"><li>• Institution name</li><li>• Institution type – single unit, campus in a system, system office</li><li>• Affiliation – public, private, private religious, private independent, private-for-profit</li><li>• 2010 Carnegie Classification category</li><li>• Level of instruction – undergraduate, graduate or both</li><li>• NCAA Division</li><li>• Metropolitan Statistical Area (MSA)</li><li>• Standard Federal Regions</li></ul> | <ul style="list-style-type: none"><li>• Total expenses reported to IPEDs in 2013-14 Spring Finance Survey</li><li>• Student size Fall 2014 – full-time, part-time and FTE undergraduate and graduate</li><li>• Faculty size Fall 2014 – full-time tenured/tenure-track and non-tenure-track, per course/part-time, and total FTE</li><li>• Staff size Fall 2014 – full-time, part-time and FTE exempt and non-exempt</li><li>• Union representation of faculty and staff</li></ul> |
|--|--|

The following data are collected for each position in the survey. However, years-in-position, gender and ethnicity data are only collected for single incumbent positions. Prior to 2011-12, the survey asked whether the incumbent was a minority or non-minority. This simpler breakdown is still available in the database, with minority including everyone not reported as White (not Hispanic or Latino).

# Profile of 2014-15 Participating Institutions

This year's Administrators Survey was completed by 1,227 higher education institutions. **Appendix A** lists survey participants in alphabetical order, along with each institution's Unit ID, 2010 Carnegie Classification, affiliation, structure and state. As the chart below shows, Public Institutions comprise 48% (592) of the 2014-15 respondents, and private institutions 52% (635). The latter includes more non-religious (29% / 353) than religiously affiliated (23% / 282) institutions.

## % Distribution of 2014-15 Survey Respondents by Affiliation

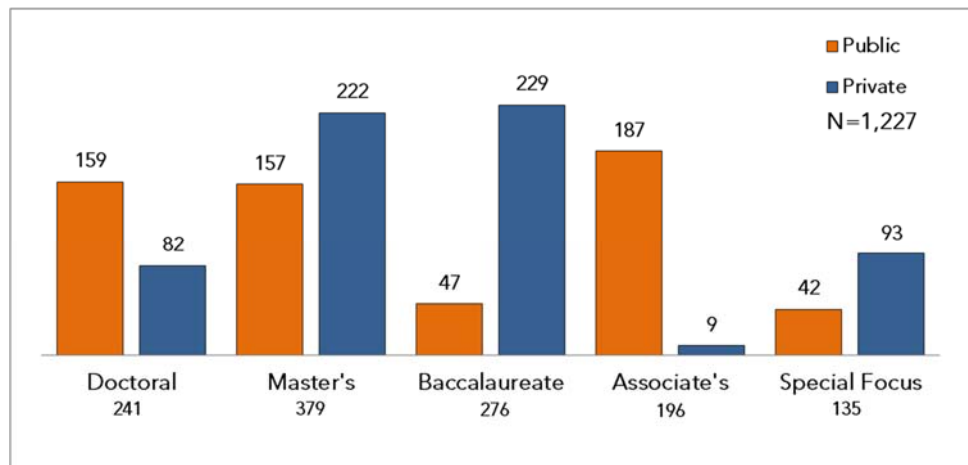

*CUPA-HR 2014-15 AHES Survey*

In terms of the 2010 Carnegie Classification, Master's colleges and universities are the largest group of participants at 30.9% (379), with private institutions making up slightly more than half of the group (18.1% / 222). Baccalaureate and Associate's colleges comprise about 22.5% and 16.0% of the respondents respectively; the former are almost all private and the latter are almost all public. Doctorate-Granting institutions make up 19.6% (241) of the respondents; two-thirds are public. Special Focus institutions (which include system offices) are the smallest segment of respondents at 11.0% (135).

## Chief HR Officer Reporting Relationship

Survey participants were asked to indicate the position to which their Chief Human Resources Officer [127000] reports. As the table below shows, 48.1% said their CHRO reports to the Chief Business Officer while 25.5% said the CEO. After these two positions, the percentages drop to single digits. The overall order is the same (and the percentages similar) as the prior four years.

	<b>N</b>	<b>%</b>

## Pay Increase Targets for 2015-16

Respondents were asked if their institution had established targets for 2015-16 pay increases, and if yes, the size of the planned increases. At the time of the survey, a higher percentage of private than public institutions had established pay increase targets for 2015-16. For those that had, planned increases were somewhat higher at public institutions.

	% with Established Targets			Average Planned Increase		
	All	Public	Private	All	Public	Private
Exempt Administrators and Professionals	19.3%	10.9%	27.1%	2.5%	2.8%	2.4%
Non-exempt Staff	20.0%	12.0%	27.4%	2.5%	2.7%	2.4%
Faculty	21.7%	15.8%	27.1%	2.7%	3.0%	2.5%

## Executive Only Benefits

Participants were asked whether their institution provides selected executives any of five “executive only” benefits/perks not available to all employees. Response options were “no, partial subsidy, and full subsidy.” As expected, the CEO is the most likely to receive all of these benefits.

# 2014-15 Salary Increases Overall and By Affiliation

Approximately 91% (1,113) of the institutions participating in the 2014-15 AHES Survey also completed the 2013-14 survey. A position-by-position analysis of the salaries reported by these institutions in both years' show that **the median salary increase was 2.4%.**<sup>1</sup> **Public institutions had a median increase of 2.5% compared to 2.3% for private institutions.** As the chart below shows, median salary increase this year is the same as those reported last year.

According to the Bureau of Labor Statistics, the **annual Consumer Price Index** for all urban consumers [CPI-U] in 2014 was **1.6%** higher than in 2013. As such, median salary increases this year were better than inflation for all institutions, both public and private.

<sup>1</sup> **Method of Calculating Median Salary Increase:** Percent change is determined for each pair of salaries reported by institutions for the current and prior year, and then the median of the percent change is calculated.

# 2014-15 Salary Increases by Carnegie Class

Doctoral and Associate’s institutions had the highest median salary increases at 2.5%, followed by Special Focus institutions at 2.4%. For Baccalaureate and Master’s institutions median increases were the same as last year, at 2.3% and 2.0% respectively. Increases were similar for public and private institutions across all categories, with the exception of Special Focus. For this group, increases were greater at public institutions.

# Survey Methodology

The *Administrators Survey* is conducted entirely on the Web using Surveys Online (SOL), CUPA-HR's Web-based data collection and reporting system. This year's survey opened for data collection on October 28, 2014 and closed on February 6, 2015. An Upload Option was available that allowed respondents to upload a file of salary data to SOL, saving the effort of manually keying each item.

If available, last year's reported salary data were provided on this year's questionnaire to aid in survey completion. Interactive FTE calculation worksheets were also available to help institutions calculate full-time equivalent student enrollment, as well as faculty and staff figures.

Thousands of real-time and server-side validation checks are built into the questionnaire. These checks flag data that are significantly different from data reported last year by an institution, or that are extremely low or high. A final validation check flags computational and other potential errors. In order to submit its survey, an institution has to correct all "fatal" errors and correct or annotate all "serious" errors. The validation checks streamline the data cleaning process and allow significantly faster turnaround time for results.

All data submitted by institutions for the 2014-15 survey will be available online for the next five years. After that, the data will be archived, but still accessible upon request.

## Definitions

**Expense Quartiles:** To compute the quartiles, the total expenses reported by each institution to IPEDS the prior year were ranked from low to high. One-quarter of the institutions were then included in each quartile. The expense ranges for each quartile are listed in the column headings of applicable report tables. Prior to 2013-14 total operating budget was reported rather than total expenses.

**Enrollment Quartiles:** To compute the quartiles, the enrollments reported by each institution were ranked from low to high. One-quarter of the institutions were then included in each quartile. The enrollment ranges for each quartile are listed in the column headings of applicable report tables.

**Percentile Ranks:** To compute percentiles, each institution's average salary is counted once, ranked from low to high and then split at the following points:

- 20<sup>th</sup> percentile: 20% of all reported salaries equal or fall below this value.
- 40<sup>th</sup> percentile: 40% of all reported salaries equal or fall below this value.
- 50<sup>th</sup> percentile (**Median**): 50% of all reported salaries equal or fall below this value. The median is considered a more reliable measure than the mean (arithmetic average) in distributions containing a few extremely high or low numbers.
- 60<sup>th</sup> percentile: 60% of all reported salaries equal or fall below this value.
- 80<sup>th</sup> percentile: 80% of all reported salaries equal or fall below this value.

# Data Specifications

Respondents were asked to observe the following specifications in reporting their data:

- Salaries are those in effect as of November 1, 2014.
- Salaries are at an annualized, full-time rate; they reflect actual cash earnings only (except for housing positions), excluding any services contributed without charge.
- Total expenses are those reported to IPEDS in the Spring Finance Survey of the prior year. Prior to 2013-14, total operating budget was used.
- Enrollment is as of the institution's official fall reporting date or October 15. Faculty and Staff size are as of November 1, 2014.
- Enrollment is stated in terms of full-time equivalent students. For the few institutions that did not report this data, other sources were found for this data or last year's survey submission was used, if available.
- The 2010 Carnegie Classifications are used in this report to categorize institutions into five groups based on their degree-granting activities. The last group, Special Focus Institutions, is not broken out separately in the Carnegie-related tables, but is included in the final "All Institutions" column. In DataOnDemand, institutions (including Special Focus) are classified by both group and sub-group.
  - **Doctorate-granting Universities.** Includes institutions that award at least 20 doctoral degrees per year (excluding doctoral-level degrees that qualify recipients for entry into professional practice, such as the JD, MD, PharmD, DPT, etc.). Some institutions above the master's degree threshold are included among Baccalaureate Colleges, and some below the threshold are included among Master's Colleges and Universities. Excludes Special Focus Institutions and Tribal Colleges.

    - > Bac/A&S: Baccalaureate Colleges—Arts & Sciences
    - > Bac/Diverse: Baccalaureate Colleges—Diverse Fields
    - > Bac/Assoc: Baccalaureate/Associate's Colleges

- **Associate's Colleges.** Includes institutions where all degrees are at the associate's level, or where bachelor's degrees account for less than 10 percent of all undergraduate degrees. Excludes institutions eligible for classification as Tribal Colleges or Special Focus Institutions.

# Accessing Survey Results

CUPA-HR's salary surveys are excellent support tools for your benchmarking and planning processes. Each of our surveys affords you the ability to compare your institution's salaries for specific positions to those of your peer or aspiration institutions and to higher education as a whole, thus providing the basis for informed decisions. Results for the *2014-15 Administrators Survey* can be accessed in two ways.

- **Survey Report**

The annual survey report is published electronically in PDF format only. It provides an easy-to-read, national-level summary of salaries by position. Salary data are shown for all institutions as a whole, and for groupings based on affiliation, total expense size, student enrollment and 2010 Carnegie Classification. It also includes salary comparisons by gender and minority status.

*Salary Comparisons:* Dividing your institution's salaries by those reported in the survey will give you a good indication of how much more or less you are paying for the same position than other institutions.

- **DataOnDemand (DOD)**

DOD is a hands-on application that gives institutions and up to six specified users direct access to survey data—from the date of purchase until January 31st of the following year. Users also have access to results for that survey from the prior four years. DOD is a great value as you can conduct your own analyses any time you want and as often as you want, using peer comparison groups that you create. Use of DOD is limited only by the five restrictions in place to protect confidentiality:

- No salary data are linked to a given institution (other than where a user has permission to see his or her institution's data).
- No salary data are reported for positions with fewer than five responding institutions.
- Each comparison group must include a minimum of eight institutions that participated in the survey.
- Each comparison group created must differ by at least three institutions from all other existing **and** deleted comparison groups.
- The weighted data option provides salary data only for positions with 5 or more responding institutions **and** in which all responding institutions comprise 25.0% or less of position incumbents. If a position has at least 5 responding institutions but one institution represents more than 25% of the incumbents, salary data are not reported.

Using DOD is easy. In most instances, all you have to do is create your comparison group and run one or more of the *Administrators Survey* standard reports we have created to meet your informational needs. Where appropriate, reports can be produced using either un-weighted or weighted data. Output formats are HTML, Excel or PDF.

- **Single Position Report:** Provides average, median, actual minimum and actual maximum salary for one position.
- **Multi-Position Report:** Provides average, median, average minimum and average maximum salary for multiple positions.

Standard deviation (SD) is reported in the comparison group column next to Average Salary. The SD indicates how tightly salaries are clustered around the mean; the smaller the SD the more concentrated the salaries; the larger, the more dispersed. Users also have the option to filter out position salaries that are more than 2 standard deviations from the mean. One SD from the mean in either direction accounts for approximately 68% of the salaries, while 95% of the salaries are within 2 SD. Filtering at 2 SD excludes both the high and low extremes.

- **Ordinal Rank Report:** Provides an anonymous listing of the un-weighted or weighted average salary reported for all positions by each responding institution.
- **Trend Report:** Allows you to see the percentage change in your salaries by position from a prior year to a second year (e.g. the current year) and comparable percentage change statistics for a selected set of peer institutions.
- **Multi-Position Demographic Report:** Provides salary data by minority/non-minority status and gender for single incumbent positions.
- **Aging Option:** Allows you to run DOD reports and see estimated results had the data been collected at a different point in time (the Aging Date). You can age data from the day after the "report as of" date (i.e. from November 1, 2014) to as far ahead as January 1 of 2016 – roughly the time when a new year's worth of survey data are released. Aging is based on a projected annual rate of increase for the survey year and a portion of the subsequent year. The same rate is used for both years and there is no compounding

In addition, you can also create slide shows and presentations, and even conduct your own *Geographical Statistical Area (GSA)* analyses by creating comparison groups based on Metropolitan Statistical Areas. GSA reports are used by compensation administrators to review salary data pertinent to the local labor market and by international educators to determine prevailing wages for specific job codes as part of the H-1B Visa process. DOD is described in detail at <http://www.cupahr.org/surveys/dod.aspx>.

DOD is available to all higher education institutions, regardless of survey participation. Institutions may have multiple users for each subscription. For maximum value, we recommend purchasing a survey report *and* access to DOD. We offer discounts for systems or consortiums purchasing a DOD subscription in the same order.

Go to <http://www.cupahr.org/surveys/order.aspx> to order survey results.
