

December 5, 2019

Dear Majority Leader McConnell and Minority Leader Schumer,

The undersigned organizations —a diverse group of employers, industries, health care stakeholders, unions, patient and disease groups — urge you to take immediate action to protect the health care of the more than 178 million Americans who receive health care coverage through an employer. We are asking you to swiftly, and fully, repeal the impending 40% tax on employer-provided health care before this onerous tax increase hits the pocketbooks of hardworking Americans.

In July, the House passed a bill fully repealing this tax by an overwhelming vote of 419 to 6 and that bill is currently awaiting action in the Senate.

The consequences of inaction are serious for hardworking American families. Employers are making decisions today to avoid this looming tax. Many millions of working Americans will pay more out of pocket for medical treatment or face reduced health coverage in narrower networks. According to Kaiser Family Foundation 2018 data, since 2010, health care deductibles have risen 89%, while wage growth has remained comparatively flat.

To avoid the huge “Cadillac Tax” hikes coming in 2022, many employers are altering their benefit packages now. Employers that offer non-calendar year health plans, could begin, as early as next year, enrolling people into health plans that could be subject to the tax.

While this tax was intended to only hit Americans with “gold-plated” plans, the reality is that very modest plans covering low- and moderate-income working families are projected to trigger the tax simply because they incur greater health expenses. The tax will disproportionately affect the health plans of women, seniors, rural communities, the sick, and the disabled. Small businesses that already struggle to offer health care coverage will also be heavily penalized. This tax has real and harmful consequences — Americans cannot afford to pay more for their health care.

Employer-provided coverage is the backbone of our health care system and the primary source of coverage for more than half of all Americans. According to recent polling, 93% of voters oppose taxing employer-provided health coverage.

The 40% “Cadillac Tax” on employer-provided health coverage is widely opposed by both Republicans and Democrats. Along with the 419 members of the House that voted to fully repeal this tax, there are 63 bipartisan Senate cosponsors of S. 684, the Middle-Class Health Benefits Tax Repeal Act of 2019.

Working families are already stretched too thin. They need a meaningful WIN—one that cuts taxes, lowers health care costs, and protects employer-provided health care coverage. It all starts with repealing the “Cadillac Tax.”

Let’s work together to keep health care affordable and available for 178 million Americans.

Sincerely,

3 Rivers Communications
