

# Leading Talent Management Software FOR HIGHER EDUCATION

*Strategic human capital management that will help you engage and retain your most important asset and align your talent strategy.*

Strategic HR – it’s not rocket science. But it can seem like it without the right solutions to help you align your talent strategy with your organizational goals.

As talent management experts in the higher education sector for over 15 years, PageUp knows the success of your institution hinges upon your ability to proactively source, develop, and retain top quality faculty, staff, administration and leadership. PageUp’s cutting-edge Unified Talent Management solution makes strategic HR decision-making easier than ever before, saving you time and money while ensuring your institution remains at the top of its class.

## What makes us at PageUp unique?

### A UNIFIED PLATFORM

**Recruitment & Onboarding**  
**Learning**  
**Performance**  
**Succession**

Our software can accompany your workforce from recruitment to retirement. Each module can be implemented standalone or added to any other module in our suite of software.

### UNCAPPED SUPPORT

You get 24x7 dedicated strategic and technical account management plus a 24-hour call center. Our all-inclusive support model means you’ll never worry about cost overruns.

### RAPID INNOVATION

Every customer operates on a single, yet highly-configurable versionless platform. No costly updates or downtime – just one cloud platform that’s always up-to-date, working seamlessly from start to finish.

### A HIGH-TOUCH PARTNERSHIP

Our Implementation Team will work with you onsite to give you the knowledge and power to ensure your system is always adding maximum value.

# Key Features:

## Proactive Sourcing

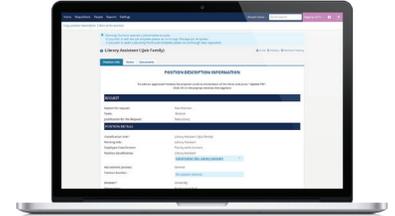

Stay ahead of the competition by finding the best and brightest, passive and active talent for those hard-to-fill faculty roles. Identify, engage, and market to a quality pipeline of internal and external candidates with our Talent Search CRM.

## Higher Ed Workflows

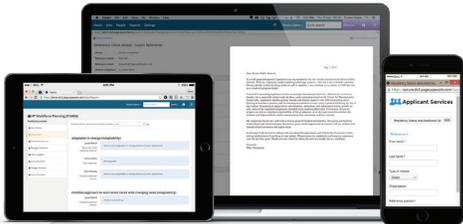

Our highly-configurable system allows you to create unique processes for each job family across faculty, staff or even specific departments. As many workflows and position descriptions as you need!

## Position Descriptions

Capture the right talent with an unlimited number of position descriptions for every role. These forms are completely configurable, permission-able, and can even support email approval workflows.

## Higher Ed Functionality

Nominate, request and review **Letters of Recommendation** automatically, inline with your recruitment processes. Streamline your **Search Committee** reviews to produce the best candidates with dedicated ranking, candidate management and reporting.

## Mobile-Optimization

Reach and engage potential candidates as well as existing employees anytime, anywhere - our solutions are mobile-optimized and app-enabled.

## Analytics & Reporting

We've partnered with other higher education institutions to provide out-of-the-box reports including EEO reporting. Our report builder caters to all your ad-hoc requests!
