CUPA-HR Data Use Agreement

- All survey results are copyrighted by the College and University Professional Association for Human Resources (CUPA-HR). No data contained in a survey report or obtained through DataOnDemand (DOD) may be reproduced in any form for any purpose without the written consent of CUPA-HR. Report findings and conclusions may be appropriately cited/referenced in other reporting if there is proper acknowledgment of the source and the referenced material does not involve reproduction of data tables or graphics.
- DOD can be purchased only by higher education institutions. Due to the sensitive and confidential nature of the data we collect, we reserve the right to confirm an individual's authorization to purchase DOD with his or her HR department, and to confirm with HR that each user listed on the order is authorized to view employee data. Individuals outside of the HR department seeking access will need written approval from the head of HR — these include faculty, unions, other administrators, etc. CUPA-HR accepts no responsibility for any employee who misrepresents his or her authorization.
- Annual survey reports contain comprehensive tables of aggregated data and may be purchased by anyone. However, all points of this agreement apply to the use of this tabular data.
- Survey results may not be changed or modified. Results may not be misrepresented as to their source or intent.
- Survey results may not be used to solicit or conduct business. The sole exception is the use of consultants who are currently engaged in a project with a higher ed institution that has granted access to that institution's purchase of DOD. Consultants may use the obtained data in their business dealings with the purchasing institution only. Consultants cannot order DOD directly. They should ask the appropriate representative of the institution for which they are working to contact us — via research@cupahr.org — to request consultant access to DOD. The institution representative should furnish: (a) the consultant's name, company, address, e-mail, and phone number; (b) a statement that indicates the consultant has been hired to perform work requiring the use of CUPA-HR data; (c) authorization for the consultant to see the institution's data; and (d) the names of the surveys to which the consultant should be granted access.
- Survey results may not be uploaded to a separate system or placed on the web without the explicit permission of CUPA-HR.
- Access to survey reports and DOD is limited to the users purchasing the report or subscription. Sharing report information, log-in credentials, output from DOD analyses, or DOD access with other institutions or organizations will result in immediate cancellation of access and will preclude future access. The system tracks and monitors purchases, use, and users.
- An institution is defined as an entity which has as its sole purpose the provision of postsecondary education and reports to the [Integrated Postsecondary Education Data System](#) (IPEDS) hosted by the National Center for Education Statistics (NCES). Results must be purchased for each institution in which CUPA-HR data is used and may only be used for the institution for which the subscription was purchased. Results may not be shared with — or used for — institutions within a multi-institution system for which a DOD subscription or annual report has not been purchased. System offices, defined as any entity that oversees two or more institutions, may share or use data only with institutions in their system for which the data has been purchased.

Highlights

The following are highlighted results from the CUPA-HR 2019 *Professionals in Higher Education Annual Report*:

- The median salary increase for higher ed professionals over the past year was 2.17%, which is the same as last year and slightly below the rate of inflation. The median salary increase was highest at doctoral institutions (2.61%). Median increases were below 2.00% for all other classifications.
- Professionals in the area of health science and environmental sustainability make the highest salaries (median \$94k). Within that area, staff physicians are the highest paid professionals (median \$169k).
- The highest percentage of professionals (15%) work in the area of student affairs, followed by information technology (14%) and academic affairs (13%).
- The fastest growing professional positions are head of IT information management (+63%) and senior planned giving officer (+53%).
- Nearly two-thirds (60%) of professionals are women, and nearly one-quarter (23%) are racial/ethnic minorities. Women are best represented in the area of health science and environmental sustainability and least represented in information technology. Racial/ethnic minorities are best represented in the area of research and least represented in external affairs.
- Pay equity for women and minorities varies greatly with professional area. Women are underpaid in every area, with the greatest pay gap in the area of health science and environmental sustainability, where women are paid only \$0.88 on the dollar. Professionals of color have large pay gaps in facilities and information technology positions. In contrast, Asian professionals are paid more than other racial/ethnic groups in nearly every area, most notably in health science and environmental sustainability.
- The professional positions most likely to be impacted by recent proposed changes to the Department of Labor's overtime rule include student admissions counselors and student residence hall managers (room and board included), childcare center teachers, and assistant baseball coaches. These positions have either a high number of employees or high percentage of employees who are currently paid below the proposed salary threshold of \$35,308.

Introduction

This marks the 22nd year of data collection on higher education professionals for CUPA-HR. This survey collects data at the incumbent (non-aggregate) level for all professionals, allowing the collection of both salary and demographic information — sex, race/ethnicity, age, and years in position — for every incumbent in every position reported. Highlights of this data are included in this report.

In addition, this is the third year the survey has collected exempt/non-exempt status for each professional incumbent, allowing institutions to benchmark exempt status prevalence and salaries for each professional position. This is particularly important given the Department of Labor's proposed changes to the Fair Labor Standards Act overtime rule.¹ Over the past few years, many higher education institutions have worked diligently to reclassify and change compensation for many professional positions in anticipation of overtime rule changes.² Significant shifts in exempt status and salaries are covered in this report.

- Sex (optional)
- Race/ethnicity (optional)
- Year entered current position (optional)
- Birth year (optional)
- Exempt status (exempt or non-exempt)
- Bonus eligibility (yes or no; for coaches only)

Participants could either enter this data manually online for each incumbent or upload a file containing this data.

Acknowledgments

CUPA-HR's *Professionals in Higher Education Annual Report* provides data on salaries and demographic information for professionals employed in a cross-section of the nation's colleges and universities.

We are indebted to the human resources professionals and institutional research professionals of the colleges and universities who completed the survey.

In the CUPA-HR national office, our research department staff coordinated and reviewed all aspects of survey analysis and report production. To ensure the accuracy of data, the research staff conducted numerous outlier and validation checks with those responsible for completing the survey. Peerfocus, Inc., our partner and collaborator in Surveys Online, provided web-based data collection, automated validation checks, and table generation. Appendix A. Comprehensive Tables

The salaries provided in these tables are annualized base salaries. The tables in this appendix report unweighted median salaries.¹⁰ The median divides salaries in half: 50% of all reported salaries fall above or below this salary. The median is a more reliable measure than the mean (average) in distributions that are skewed (containing a few extremely low or — in the case of most salary data — high numbers).

Data is reported only for positions having at least five responding institutions.¹¹ To compute the quartiles, the total expense/enrollment numbers reported by each institution were ranked from low to high, and one quarter of the institutions were assigned to each quartile. Quartile ranges are listed in the column headings of each applicable table.

Some of the tables also report salary data by percentile rank. To compute percentiles, each institution's average salary is counted once, ranked from low to high and then split at the following points:

- 20th percentile: 20% of all reported salaries are equal to or fall below this value
- 40th percentile: 40% of all reported salaries are equal to or fall below this value
- 50th percentile: 50% of all reported salaries are equal to or fall below this value
- 60th percentile: 60% of all reported salaries are equal to or fall below this value
- 80th percentile: 80% of all reported salaries are equal to or fall below this value

¹⁰ The tables in Appendix A provide a large-scope picture of professional salaries. To benchmark salaries using custom comparison groups, or to view salaries by sex, race/ethnicity, age, or years in position, higher ed institutions should subscribe to [DataOnDemand](#).

¹¹ Both annual reports and DataOnDemand follow Department of Justice safe harbor guidelines for antitrust regulations. An explanation of these guidelines can be found here: http://compforce.typepad.com/compensation_force/2007/02/antitrust_regul.html.
