CUPA-HR Data Use Agreement

- All survey results are copyrighted by the College and University Professional Association for Human Resources (CUPA-HR). No data contained in a survey report or obtained through DataOnDemand (DOD) may be reproduced in any form for any purpose without the written consent of CUPA-HR. Report findings and conclusions may be appropriately cited/referenced in other reporting if there is proper acknowledgment of the source and the referenced material does not involve reproduction of data tables or graphics.
- DOD can be purchased only by higher education institutions. Due to the sensitive and confidential nature of the data we collect, we reserve the right to confirm an individual's authorization to purchase DOD with his or her HR department, and to confirm with HR that each user listed on the order is authorized to view employee data. Individuals outside of the HR department seeking access will need written approval from the head of HR — these include faculty, unions, other administrators, etc. CUPA-HR accepts no responsibility for any employee who misrepresents his or her authorization.
- Annual survey reports contain comprehensive tables of aggregated data and may be purchased by anyone. However, all points of this agreement apply to the use of this tabular data.
- Survey results may not be changed or modified. Results may not be misrepresented as to their source or intent.
- Survey results may not be used to solicit or conduct business. The sole exception is the use of consultants who are currently engaged in a project with a higher ed institution that has granted access to that institution's purchase of DOD. Consultants may use the obtained data in their business dealings with the purchasing institution only. Consultants cannot order DOD directly. They should ask the appropriate representative of the institution for which they are working to contact us — via research@cupahr.org — to request consultant access to DOD. The institution representative should furnish: (a) the consultant's name, company, address, e-mail, and phone number; (b) a statement that indicates the consultant has been hired to perform work requiring the use of CUPA-HR data; (c) authorization for the consultant to see the institution's data; and (d) the names of the surveys to which the consultant should be granted access.
- Survey results may not be uploaded to a separate system or placed on the web without the explicit permission of CUPA-HR.
- Access to survey reports and DOD is limited to the users purchasing the report or subscription. Sharing report information, log-in credentials, output from DOD analyses, or DOD access with other institutions or organizations will result in immediate cancellation of access and will preclude future access. The system tracks and monitors purchases, use, and users.
- An institution is defined as an entity which has as its sole purpose the provision of postsecondary education and reports to the Integrated Postsecondary Education Data System (IPEDS) hosted by the National Center for Education Statistics (NCES). Results must be purchased for each institution in which CUPA-HR data is used and may only be used for the institution for which the subscription was purchased. Results may not be shared with — or used for — institutions within a multi-institution system for which a DOD subscription or annual report has not been purchased. System offices, defined as any entity that oversees two or more institutions, may share or use data only with institutions in their system for which the data has been purchased.

Highlights

The following are highlighted results from the CUPA-HR 2021 *Professionals in Higher Education Annual Report*:

- The overall median salary increase for higher ed professionals from 2019-20 to 2020-21 was 0.62%, the lowest increase since 2010.
- Median salary increases were below 1% for all professional areas. Student affairs professionals received the largest median increase, whereas facilities and research and health sciences professionals received the lowest median increase (no increase).
- The size of the higher ed professional workforce overall decreased slightly over the past year. In 2019-20, the number of full-time exempt staff increased by 4.4%. In 2020-21, the number of full-time exempt staff decreased by 0.4%. Institutions of all classifications decreased their number of full-time exempt staff. Associate's institutions experienced the largest decrease, at 6.0%. Doctoral institutions experienced the smallest decrease in full-time exempt staff, at 0.6%.
- The professional position with the most growth over the past year is head of accreditation for graduate medical education. The position with the greatest percentage decrease in number of positions is IT consultant.
- The representation of women and racial/ethnic minorities within higher ed professional positions is slightly higher than last year, indicating that cuts made during the past year did not disproportionately impact the representation of women and minorities in professional positions overall.
- Continuing trends from past years, women are well represented in most professional areas, except athletics, facilities, and information technology. Women are paid less than men in all professional areas except external affairs, where women are paid equitably to men. The pay gap between women and men is most pronounced within athletics.
- Minority men make up less than one-tenth of higher ed professionals (9%). Minority women are better represented than minority men; they make up 15% of professionals.
- Black, Hispanic/Latinx, and White women are paid less than White men in each professional area, but Asian women are paid the same or more than White men in five of nine professional areas.

Introduction

This marks the 24th year of data collection on higher education professionals for CUPA-HR. The *CUPA-HR Professionals in Higher Education Survey* collects data at the incumbent (non-aggregate) level for all professionals reported, allowing for the collection of salary, sex, race/ethnicity, age, and years in position. The CUPA-HR Professionals in Higher Education Survey is the largest of all CUPA-HR surveys, with data on more than 400 professional positions.

This marks a special year for data collection and reporting for all CUPA-HR surveys. The severe budget cuts in the wake of the COVID-19 pandemic forced many institutions to freeze hiring, cut positions, and, in some cases, decrease salaries. This report highlights the overall changes to professional composition and salaries over the past year.

Methodology

SURVEY

The data collection period for CUPA-HR's *Professionals in Higher Education Survey* ran from November 2, 2020 to January 15, 2021. The survey was conducted through Surveys Online.⁴

Professionals Positions

This year's survey includes data for 265,053 professionals. For each professional reported, the following data were collected:

- Annualized base salary (effective date November 1, 2020)
- H-1B visa status
- Exempt status
- Full-time or part-time status
- Sex (optional)
- Race/ethnicity (optional)
- Year entered current position (optional)
- Birth year (optional)
- Bonus eligibility (yes or no; for coaches only)

Participants could either enter this data manually online for each professional or upload a file containing this data.

Institutional Characteristics

In addition, data on institutional characteristics were collected from all participants:⁵

- Total expenses reported to IPEDS in 2019-20
- Student enrollment (effective date approximately October 15, 2020)
- Faculty size (effective date November 1, 2020) and number of separations in the past year
- Staff size (effective date November 1, 2020) and number of separations in the past year
- Human resources staff size and number of separations in the past year
- CHRO reporting relationship
- Whether collective bargaining exists for the following groups:
 - Full-time faculty
 - Part-time or adjunct faculty
 - Full-time staff
 - Graduate students

Basic information on total expenses as well as student, faculty, and staff size were required questions. All other questions were optional.

⁵ See the [Professionals Survey Participation and Information Template \(SPIT\)](#) for more specific information about the data collected on this year's survey, as well as the instructions provided to participants.

RESPONDENTS

Respondents were largely human resources professionals from higher education institutions in the U.S.⁶ There were 987 institutions that completed the survey (Table 1). All participating institutions are listed in Appendix B.

Table 1. Number of Responding Institutions by Classification and Affiliation

| Classification | Affiliation | | | Total |
|---------------------------|---------------------|-------------------|------------|------------|
| | Private Independent | Private Religious | Public | |
| Doctoral | 65 | 53 | 172 | 290 |
| Master's | 78 | 100 | 134 | 312 |
| Baccalaureate | 75 | 67 | 31 | 173 |
| Associate's | 1 | 0 | 104 | 105 |
| Special Focus/Other | 73 | 11 | 23 | 107 |
| Total Participants | 292 | 231 | 464 | 987 |

⁶ Special focus/other institutions include medical/law institutions, tribal colleges, research foundations, international institutions, for-profit institutions, higher ed affiliates, and unclassified institutions that typically have much different salary structures than traditional institutions and differ greatly from each other, so reporting them as a single category is not appropriate, and they do not appear in this report. However, their data are available for benchmarking in DataOnDemand, and their names appear in the participant list in Appendix B.
